The In-Company Training Roadmap

Our in-company training roadmap comprises three distinct phases:

- **Phase 1 – Project Preparation:** Involves a scoping meeting with your organization's key stakeholders to finalize the curriculum, establish the session plan, and select or develop the practical exercises, dynamics, and pedagogical activities best aligned with the training objectives.
- **Phase 2 – Program Delivery:** Execution of the proposed training model, with dates, times, and logistics to be mutually agreed upon by both parties.
- **Phase 3 – Project Debrief & Closure:** A final review meeting featuring the handover of the technical-pedagogical report and DGERT-compliant SIGO training certificates. This session may also include subsequent upskilling or consolidation proposals designed to further reinforce competencies and drive performance
