About LMI
LMI began as a vision in the mind of a self-motivated man known for his ability to transform ideas into goals and goals into phenomenal success. Paul J. Meyer founded LMI more than 40 years ago to help individuals and organizations develop expertise in setting and reaching personal and business goals. Using a Total Person® concept, Meyer designed his materials to enable people to balance their lives in all areas – family and home, financial and career, mental and educational, physical and health, social and cultural, and spiritual and ethical.

Eager to put into practice Meyer's unique approach to achieving well-rounded success, other businesspeople soon joined Meyer's quest to assist clients to realize more of their managerial and executive potential. Founded in 1966, this Central Texas corporation has become an extensive, far-reaching organization with materials produced in 23 languages and marketed in more than 60 countries worldwide.

The LMI process is supported and facilitated by a wide selection of materials reflecting the best thinking of successful leaders in business and human development. Individuals associated with LMI have a rich background of experience and success. LMI's powerful success process and outstanding leaders demonstrate LMI's belief in the potential of every man and woman to prepare to meet today's leadership and management challenges.
