GEMINI ENTERPRISE PROGRAMME

Training Project Management and Coordination

CONTEXT
WHY?

LEARN IA. DRIVE INOVATION

KEEP IN MIND

A company's strongest asset is its people, and the most forward-thinking organisations treat employee development as a *continuous, long-term investment*.

Skolae FORMAÇÃO

Following **SAMSUNG** request for SKOLAE to support the Artificial Intelligence training project delivered by PRAXCV, we are pleased to present the following proposal.

PRAXCV will be responsible for the instructional design and technical delivery of the training programmes, while **SKOLAE** will provide the overall project management and coordination, ensuring efficient implementation, a consistent learning experience for all participants, and continuous operational, administrative and pedagogical support throughout the project.

391 Pax

SAMSUNG COLABORATES

Presential

In the following pages, we present our proposal, outlining the process, methodology, indicative training programs, expected duration, and the objectives to be achieved through this intervention.

PURPOSE

To ensure the successful planning, coordination and delivery of Samsung's Artificial Intelligence training programme by combining PRAXCV's technical expertise with SKOLAE's project management capabilities, providing a seamless learning experience, operational excellence and consistent support throughout the entire training journey.

INTERVENTION PROCESS

Our approach is structured around 3 stages:

PREPARATION

- Working Meetings with Samsung and PRAXCV
- Understand the project requirements and align the project

DELIVERY

- Programme monitoring and operational management, ensuring the administrative and pedagogical coordination of the programme

EVALUATION

- Delegate satisfaction and reaction assessment
- Learning observation and evaluation
- Post-programme report and debrief

STAGE 2

PROJECT OVERVIEW

The intervention covers the management of an **Artificial Intelligence training programme based on Gemini Enterprise**, consisting of **25 face-to-face training sessions**, each lasting **2 hours**, delivered over **8 training days**:

- **Portugal:** 1 day – 4 sessions
- **Spain:** 7 days – 21 sessions

The programme is designed for **391 participants**, distributed as follows:

- **70 employees in Portugal**
- **321 employees in Spain**

**Training will be delivered in English or Spanish depending on the location.*

A Partnership Focused on Excellence

The combination of **PRAXCV's expertise in Artificial Intelligence** and **SKOLAE's extensive experience in managing international learning projects** enables the delivery of a fully integrated solution, reducing the client's administrative workload while ensuring high standards of quality, consistency and operational excellence.

This partnership provides a single point of coordination, structured communication between all stakeholders, and continuous oversight throughout the implementation process, ensuring that each of the **25 training sessions** is delivered in line with the agreed objectives and provides the best possible learning experience for all **391 participants**.

STAGE 2

DELIVERY

SKOLAE RESPONSIBILITIES

OVERALL PLANNING AND PROJECT COORDINATION

- Overall planning and implementation of the programme in close collaboration with PRAXCV and SAMSUNG.
- Development and management of the training schedule.
- Coordination between all stakeholders involved.
- Ongoing monitoring of project execution and management of any required adjustments to the implementation plan.

PARTICIPANT MANAGEMENT

- Organisation of participants into the different training groups and sessions according to the distribution provided by SAMSUNG, following the results of the pre-assessment questionnaire used to determine participants' knowledge level and allocate them to the appropriate session.
- Preparation and distribution of training invitations.
- Management of confirmations, schedule changes and participant withdrawals.
- Ongoing communication with participants whenever required.

LOGISTICS COORDINATION

- Coordination with the training venues in Portugal and Spain.
- Scheduling coordination with the trainers provided by PRAXCV.
- Operational support throughout the entire programme delivery.

STAGE 2

DELIVERY

LEARNING COORDINATION

- Coordination of the implementation of the training plan.
- Monitoring the overall learning experience and quality standards.
- Continuous cordination with the PRAXCV training team.

SATISFACTION EVALUATION

- Design and distribution of participant satisfaction surveys.
- Collection and processing of evaluation data.
- Analysis of the results obtained.
- Sharing of satisfaction indicators together with recommendations for continuous improvement.

REPORTING AND MONITORING

- Continuous monitoring of the project's key performance indicators.
- Attendance and participation tracking.
- Preparation of progress reports and a final consolidated project report.

ADMINISTRATIVE MANAGEMENT

- Management of all project documentation.
- Attendance record control.
- Organisation of the technical and pedagogical training documentation.
- Issuance of participation certificates.

FINANCIAL MANAGEMENT

- Administrative coordination of the invoicing process.
- Validation of completed training sessions.
- Preparation of the required financial information.
- Issuance of invoices according to the commercial model agreed between the parties.

SKILL YOUR FUTURE

WE ARE THE PORTUGUESE SISTER COMPANY OF THE SKOLAE GROUP

Present in Portugal since 1998, SKOLAE is a European multi-specialist company focused on the development of skills and learning solutions..

Skolae FORMAÇÃO

ACELERAMOS PROCESSOS DE MUDANÇA

FORMAL LEARNING

WE ACCELERATE CHANGE PROCESSES

To grow, professionals must be able to explore, experiment and practice, this is the approach behind IFE by SKOLAE training programmes

.With an action-oriented training model built around active learning methods, we design hands-on programmes based on the learning by doing approach.

These include practical exercises, case studies, simulations, individual reflection moments, group dynamics, and the integration of learning games that encourage peer exchange and strengthen the learning experience.

INFORMAL LEARNING

WE ENCOURAGE SELF-DIRECTED LEARNING

We design immersive learning expeditions aimed at inspiring action and triggering changes in both behaviour and mindset.

These outdoor programmes promote individual and collective reflection, helping teams identify practical responses to business challenges and translate them into clear action plans.

We also develop and facilitate learning communities, and produce multi-format, multi-platform content such as videos, podcasts, eBooks, white papers, infographics, newsletters, magazines, books, blogs and websites.

PEER-TO-PEER LEARNING

WE STRENGTHEN PEER-TO-PEER LEARNING

We design programmes that help demystify key concepts, encourage the sharing of ideas and practical experiences, and create space to present and debate trends that impact business development.

Examples:

- include:Conversations with a subject-matter expertPeer-to-peer case study sharingRoundtable discussions and debates

SKILL YOUR FUTURE

OUR BELIEFS

Skolae FORMAÇÃO

THE CLIENT AT THE CENTRE

Our commitment is to address our clients' strategic challenges.

DIGITAL AS AN ENABLER

Digital is a means to increase agility and flexibility while encouraging openness. Learning will be delivered through multi-format and multi-platform solutions.

INNOVATION AS A LEVER

Developing new skills and ways of working enables innovation, accelerates change processes, and helps organisations prepare for the future.

STRENGTHENING COLLABORATION

Learning will increasingly be collaborative, reinforcing peer-to-peer exchange both in person and through communities.

IN-PERSON LEARNING AS A CORE PILLAR

Face-to-face learning will continue to play a strong social role and remain essential for improving performance.
